GROUP ASSIGNMENT

Question One: What is the <u>problem</u> you are trying to solve?
Give some background on this problem.
CLEARLY frame the problem as a design question/problem statement.
Start with "How might we….." Remember to include the <u>user</u>, their <u>need</u> and the <u>insight</u> (we are doing this so that/because)

Question Two: What is the <u>ultimate impact</u> you are trying to have?
At the end of the day, who is going to benefit from your solution, how will they directly benefit? How will your solution help?

GROUP ASSIGNMENT

Question Three: What are some <u>possible solutions</u> to your problem?
You can use the crazy 8 exercise to come up with and write down at least 3 at most 5 possible solutions to your problem.

Question four: Write down some of the <u>context</u> and <u>constraints</u> you are facing
Context - what is the environment where you are trying to solve the problem?
Constraints - what are the challenges that may come up as you are trying to solve the problem?

GROUP ASSIGNMENT - Instructions

1. You can format your work on either google word or google slides but ensure you submit your work as a **pdf**.
